

2022 MICROBIOLOGICS MICROBE MARCH MADNESS

PRESENTED BY

ELITE 8

SEMIFINALS

SEMIFINALS

ELITE 8

E. coli Eagles

Escherichia coli #0335P

Ochrobactrum Octopi

Ochrobactrum anthropi #0132P

Listeria Lions

Listeria monocytogenes #0129P

Kocuria Cougars

Kocuria rhizophila #0688P

CHAMPIONSHIP

Klebsiella Kangaroos

Klebsiella pneumoniae #0458P

Hafnia Hippos

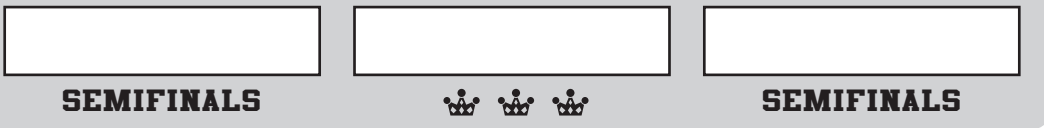

Hafnia alvei #0165P

Streptococcus Stingrays

Streptococcus pyogenes #0385P

Serratia Serpents

Serratia marcescens #0506P

Follow along with our microbial showdown to find out which bacteria will win in head-to-head competition. Eight microorganisms will compete in a series of tests to reveal the strongest competitor. Think *Listeria* has what it takes to topple *E. coli*? Can *Klebsiella pneumoniae* beat *Streptococcus*? Let's find out! Join us by filling out a bracket, or by doing your own testing alongside our team starting Tuesday, March 1st, 2022. You will need materials ordered by Monday, February 7th, 2022.
